For Immediate Release: June 20, 2018

2017 Cook County Tax Rates Released

Clerk Orr: Taxing bodies collectively ask for record \$14.4 billion

The 2017 property tax rates, calculated by the Cook County Clerk for more than 1,400 taxing agencies, were released today - the final step in the process before property tax bills are mailed.

For the first time, the total of all property taxes billed for taxing districts in Cook County exceeds \$14 billion. Last year the total tax billed in Cook County was \$13.7 billion. At \$14.4 billion, the total taxes sought by districts represents a 5% increase over the previous year, similar to increases in tax revenue for 2016 and 2015. In prior years, the total taxes billed increased approximately 1-2% annually.

Similarly, the City of Chicago's tax extension increased 5.1% and the total will again exceed \$1 billion. Meanwhile, CPS will collect nearly \$3 billion and the total taxes billed by CPS increased 8.3% over 2016.

Average residential taxpayers in the City of Chicago and the North Suburbs should expect to see roughly a 3% increase in their tax bills while South Suburban homeowners will see an average increase of about 5%.

Tax bills, which are due August 1, 2018, are calculated based on of the amount of money sought from taxing districts (the levy), the property's assessed value, the state equalization factor, and the applicable tax rate.

Property Tax Changes for Average Single-Family Dwellings by Region

	2016 Average Tax Rate1	2017 Average Tax Rate1	% Change	2016 Average Tax Bill ₂	2017 Average Tax Bill2	\$ Change	% Change
City of Chicago	7.145%	7.266%	+1.69%	\$3,996.34	\$4,106.23	+\$109.89	+2.75%
North Suburbs	9.263%	9.326%	+0.68%	\$7,118.06	\$7,331.33	+\$213.27	+3.00%
South Suburbs	13.384%	11.912%	-11.00%	\$5,178.54	\$5,425.93	+\$247.39	+4.78%

1. Average composite tax rates: Actual taxes may vary within these areas based on actual property values and tax rates.

2. Tax bills based on an average single-family residence (including condos) with market value of \$224,500 in Chicago, \$299,100 in north suburbs, and \$187,500 in south suburbs (reassessed from \$163,000 in 2016).

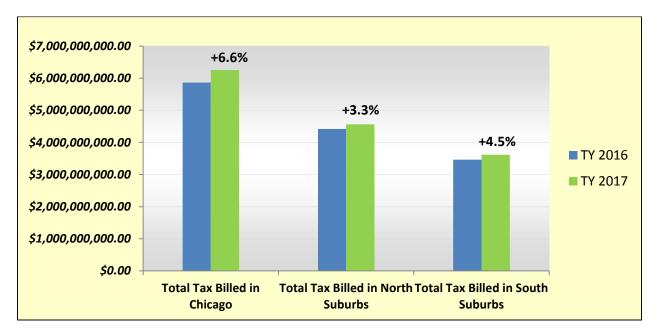

Property Tax Changes for Commercial Properties by Region

	2016 Average Tax Rate1	2017 Average Tax Rate1	% Change	2016 Sample Tax Bill ₂	2017 Sample Tax Bill ₂	\$ Change	% Change
City of Chicago	7.145%	7.266%	+1.69%	\$11,241.23	\$12,082.05	+\$840.82	+7.48%
North Suburbs	9.263%	9.326%	+0.68%	\$19,416.08	\$20,659.86	+\$1,243.77	+6.41%
South Suburbs	13.384%	11.912%	-11.00%	\$15,288.54	\$16,542.70	+\$1,254.16	+8.20%

1. Average composite tax rates: Actual taxes may vary within these areas based on actual property values and tax rates.

2. Tax bills based on sample commercial properties with the same market values as the previous examples.

3. Increased tax amounts result from a variety of factors including increased levies and changes in assessments in different areas of the county.

Total 2017 Taxes Billed in Cook County by Region

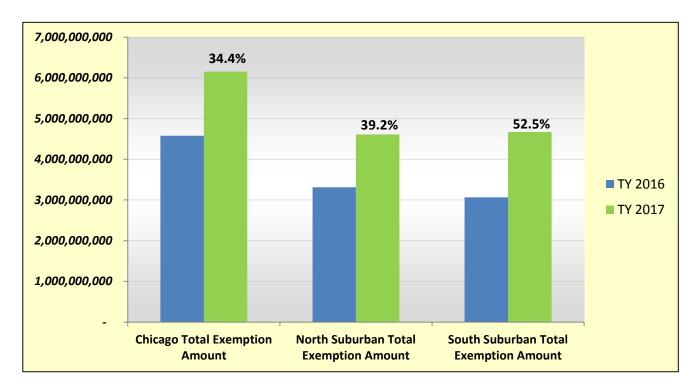

Taxable Value and Exemptions

Property assessments in Cook County are set by the Cook County Assessor and finalized by the Cook County Board of Review. These assessments are equalized using the Illinois Department of Revenue's (IDOR) state equalizer to ensure uniform assessments among counties.¹ This equalized assessed value, less applicable exemptions, is the taxable value of property.

State law allows residential property owners to take advantage of certain property tax exemptions which reduce the taxable value of individual properties if certain criteria are met. The legislature enacted changes to three of the most common tax exemptions which are effective this year:

- Homeowner Exemption reduction: Increased from 7,000 to 10,000 in taxable value
- Senior Citizen Exemption reduction: Increased from 5,000 to 8,000 in taxable value
- Senior Freeze Exemption (Taxable value "frozen" after age 65): Income eligibility requirement increased from \$55,000 to \$65,000.

2017 Residential Property Tax Exemption Reduction Amounts in Cook County by Region

The impact of these exemption increases is to shift more of the property tax burden in Cook County to nonresidential property such as industrial or commercial entities or for residential properties which are not eligible for property tax exemptions.

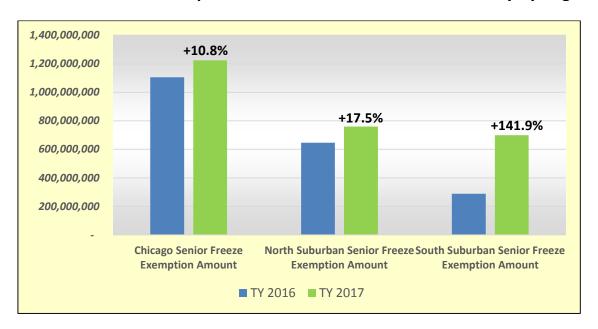

A non-reassessed property would typically see an increase in taxable value in line with the change in the state equalizer, which increased 5.7% from 2.8032 to 2.9627. The increase in the homeowner exemption will offset this increase to some degree.

Comparison of Residential property receiving Homeowner Exemption to Residential Property with no Exemption and to Commercial property – all with Market Value of \$200,000

	Residential (Homeowner Exemption)	Residential (No Exemption)	Commercial (No Exemption)
Sample Market Value	200,000	200,000	200,000
Assessed Value (10 % Residential; 25% Commercial)	20,000	20,000	50,000
2016 Equalizer	2.8032	2.8032	2.8032
2016 Homeowner Exemption	7,000	0	0
2016 Taxable Value	49,064	56,064	140,160
2017 Equalizer	2.9627	2.9627	2.9627
2017 Homeowner Exemption	10,000	0	0
2017 Taxable Value	49,254	59,254	148,135
Percent Increase Taxable Value	0.39%	5.69%	5.69%

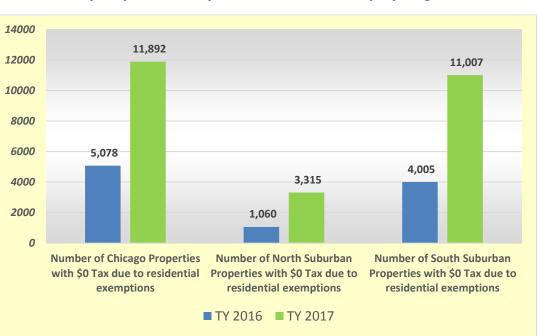

1. The increased residential and senior exemption amounts produce a shift in the tax burden to non-residential properties and all properties may experience a slight tax rate increase.

Increases in overall taxable value in the Southern Suburbs, where properties were reassessed, together with changes to the income requirements related to the Senior Freeze exemption, have resulted in large increases in the amount of taxable value reduced due to this exemption.

2017 Senior Freeze Exemption Reduction Amounts in Cook County by Region¹

Statutory increases to residential property tax exemptions also resulted in an increased number of properties that are not required to pay any property tax for tax year 2017.

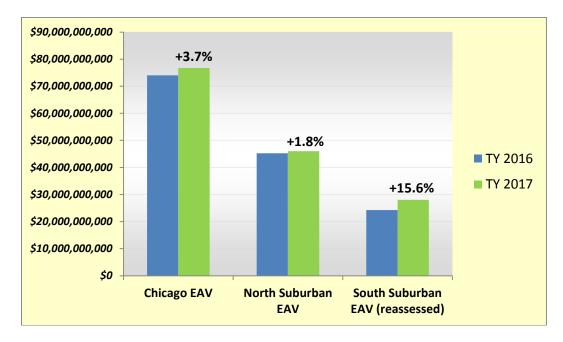

Number of Properties with \$0 Tax due to Property Tax Exemptions in Cook County by Region

¹ Note: When EAVs rise sharply, as happened in the Southern Suburbs this year, more taxpayers become eligible for the Senior Freeze Exemption and exemption amounts can increase sharply. For tax year 2016, Senior Freeze Exemption amounts increased 136% in the Northern Suburbs, which were reassessed that year.

The overall equalized assessed value (EAV or taxable value) in Cook County increased by 5.1% this year, largely due to the reassessment of the South and West portions of the County which saw assessed values increase by 13.5%. When added to a 5.7% increase in the state equalizer, offset by a 52.2% increase in residential tax exemptions, taxable values in the southern suburbs increased an average of 15.6%.

The Northern Suburbs, which were not reassessed, experienced a 1.8% increase, which includes a 39.2% increase in residential property tax exemptions.

The City of Chicago, which was also not reassessed, saw a 3.7% increase in EAV, which includes a 34.4% increase in residential property tax exemptions.

2017 Equalized Assessed Values (EAVs) in Cook County by Region

Impact of Taxable Value on Tax Rates

Due to the lower property value base in the Southern Suburbs, property owners typically see higher tax rates than those in the City or the Northern Suburbs which have a larger value base. As taxable values increased in the Southern Suburbs due to the triennial reassessment, most tax rates in that area have gone down this year. A lower tax rate applied to a higher taxable value may still result in a higher tax bill. Individual results will vary.

Taxing districts such as schools and municipalities must provide services which are funded in large part by property taxes regardless of this difference in taxable value. Thus, tax rates tend to be significantly higher in the more depressed areas of the County to meet district needs. For example, the highest tax rate in Cook County is found in the Village of Ford Heights where property owners pay a tax that is nearly 34% of their taxable value, compared to property owners in the City of Chicago or the Northern Suburbs where some tax rates are approximately 7% of taxable value. The following table illustrates differences in taxable value and tax rates for several school districts.

School District	Region	2017 Total Tax Billed	2017 Taxable Value	2017 Rate	PIN Count
School District 70	North: Morton Grove	12,021,667.77	313,227,404	3.838%	4,650
School District 95	West: Brookfield/LaGrange Park	11,310,652.48	257,411,299	4.394%	5,064
School District 163	South: Park Forest	10,944,414.17	84,814,121	12.904%	5,180

As Clerk Orr has noted, "the Illinois property taxes system is regressive and disproportionately impacts people in poorer regions. The overreliance on this mechanism of funding local government compounds existing inequities." Clerk Orr has consistently called on the state to adopt a fairer income tax that promotes less reliance on property taxes.

Tax Rate Calculation

Tax rates are calculated by dividing the amount of money each taxing district requested in their levy by the total taxable value within each district. A taxing agency or district is a body of government such as a school district, library, or municipality, which levies real estate taxes. The tax rates of all districts that service a particular property are compiled to create the composite tax rate for that property.

City of Chicago Increases

Typically, when taxable values increase, taxpayers will see a corresponding reduction in tax rates. City of Chicago taxpayers, however, are seeing rates increase of approximately 1.7%, due in large part to increased levies from the Chicago Board of Education and the City of Chicago. The City increased its levy by \$53 million this year as the third segment of a planned four-year tax increase that began in tax year 2015. Additionally, the Illinois General Assembly approved a \$154 million increase to the CPS teachers' pensions which took effect this year.

PTELL

The Property Tax Extension Limitation Law (PTELL), also known as the "Tax Cap Law" limits the increase in revenue that qualifying districts may collect to the rate of inflation. In most cases, districts this year were limited to an increase equal to the 2017 Consumer Price Index **(CPI) of 2.1%**. This allowed taxing districts to levy additional revenue, where previously they were limited to an increase of .7% for the 2016 tax year. Home rule districts, debt obligations, special purpose funds, and value derived from new property and terminated Tax Increment Financing Districts (TIFs) are exempt from this limitation.

###

2017 Property Tax Frequently Asked Questions

(Glossary to follow)

Are my taxes going up?

Individual tax bills will vary, but property taxes are generally going up for homeowners. How much they change primarily depends on which region of the County you live in. For single family residential properties, *on average*:

- Chicago (non-reassessed single family property) = 2.8% increase in property tax
- North suburbs (non-reassessed single family property) = 3.0% increase in property tax
- South suburbs (reassessed single family property) = 4.8% increase in property tax

Equalization Factor:

To ensure uniform assessment statewide, each year the Illinois Department of Revenue (IDOR) calculates the factor needed to bring the total assessed value of all properties in Cook County to a level equal to 33 1/3 percent of the total market value of all Cook County real estate. This year the state-issued equalization factor increased 5.7%, which increases the taxable value of property to which tax rates apply.

Chicago:

Taxable value in the City of Chicago is up 3.7% overall. This is mostly tied to the increase in the equalization factor. However, due to increases in property tax exemptions for some residential properties, homeowners' taxable values are up less than 1% on average while commercial, industrial, and non-owner occupied residential properties are up 5.7%, which corresponds to the increase in the equalization factor.

With the City and CPS levy increases this year contributing to an overall increase in taxes billed, Chicago taxpayers can expect a 1.7% increase in their composite tax rate from 7.145% to 7.266%.

While the average single family **residential property tax bill** in Chicago increased approximately **2.8%**, **commercial/industrial property tax bills** in Chicago increased approximately **7.5%**. This disparity is primarily due to an increase in residential property tax exemptions that resulted from state law changes (see next page). These increased exemptions lessen the tax burden on homeowners and other qualified property owners and shift some of the tax burden to commercial, industrial, and non-owner occupied residential property owners.

North Suburbs:

Most residential properties in the North Suburbs saw very little change in assessed value from last year to this year. Taxes are going up approximately 3% for homeowners and 6.4% for commercial properties. The total tax billed by taxing districts in the northern suburbs increased 3.3%.

South Suburbs:

The southern suburbs were reassessed in 2017, resulting in a 15.6% increase in taxable value. Taxes for reassessed residential properties may see an average property tax increase of 4.8% over last year while reassessed commercial properties may see an average increase of 8.2%. Total tax revenue billed in the southern suburbs increased 4.5%.

Note: Suburban tax rates and amounts vary greatly due to the large number of municipalities, school districts, park districts and other taxing districts which provide different services at different levels of taxation. Specific areas will see larger or smaller tax increases, and some areas may see decreases.

How does the triennial assessment of property impact tax bills in Cook County?

Pursuant to state law, the Assessor reassesses property in one of three geographic regions in the County every three years (triennial assessment). In 2017, properties located in the south and western suburbs were reassessed. In 2016, properties in the northern suburbs were subject to reassessment, while property in the City of Chicago will be reassessed later this year. If property values increase due to reassessment, this impacts the tax rate.

*Note: When assessed values increase and a levy remains static, the tax rate will decrease. A tax bill is always a product of the amount of money sought from taxing districts (the levy), the property's assessed value, the state equalization factor, and the applicable tax rate.

How do Property Tax Exemptions affect my taxes?

Illinois statutes allow for several types of property tax exemptions for residential taxpayers. Three of the most common exemptions were increased by state law this year:

- Homeowner Exemption Increased from 7,000 to 10,000
- Senior Citizen Exemption Increased from 5,000 to 8,000
- Senior Freeze Exemption Maximum income increased from \$55,000 to \$65,000

Higher property tax exemptions reduce individual tax bills for those who receive them and shift the property tax burden towards those not receiving these exemptions such as commercial and industrial properties and non-owner occupied residential properties.

This shift occurs when rates are calculated for the taxing districts. With less total taxable value available, a higher rate is needed to produce the tax revenue requested by a district.

Where are the highest average tax rates in Cook County?

- Village of Ford Heights has the highest rate at 33.996%
- Village of Park Forest is 2nd highest at 33.619%
- Village of Riverdale is 3rd highest at 28.760%

Where are the lowest average tax rates in Cook County?

- Village of Hinsdale is lowest at 6.583%
- Village of Burr Ridge is 2nd lowest at 6.807%
- Village of Barrington is 3rd lowest at 7.260%

Note: The City of Chicago's general tax rate is 7.266% for tax year 2017.

Does a high tax rate mean I'll have a high tax bill?

Not necessarily, although the tax rate matters, there are several factors which impact an individual tax bill.

The tax rate itself is driven by the overall assessed value in a taxing district, the state-issued equalization factor, and the district's tax levy request. Individual tax bills are calculated by applying the composite tax rate (the combined rates of all taxing districts servicing that property) to the individual taxable property value.

A property with a high tax rate but a low taxable value may result in a lower bill than a property with high taxable value and a low tax rate.

For example*:

- A property with a Market Value of \$100,000 multiplied by a rate of 20% would have a tax bill of \$3,925
- A property with a Market Value of \$400,000 multiplied by a rate of 7% would have a tax bill of \$7,596

*Residential property is assessed at 10% of Market Value and equalized.

How does a Chicago tax bill compare to a suburban tax bill for similar properties?

The City of Chicago, with its large commercial and industrial value base, has a relatively low tax rate compared to other municipalities in Cook County. Some North Suburban municipalities have lower tax rates than the City of Chicago, but the average tax rate in the North Suburbs is still higher, and the South Suburbs, with a modest tax base, have the highest tax rates.

*On average, the 2017 property tax bill for a home with a market value of \$200,000 would be:

- Chicago: \$3,579
- North suburbs: \$4,593
- South suburbs: \$5,867

*Because suburban property values and tax rates vary widely, the tax amounts in these regions also vary.

According to the DuPage County 2017 Property Tax Rate Book, the average tax rate in DuPage County this year is 7.7573%. This rate, would generate a tax bill of \$4,706 for a \$200,000 market value home in DuPage County.

Are my taxes as low as they could be?

As referenced above, Illinois statutes allow for several types of property tax exemptions for residential taxpayers. Taxpayers should check your tax bill to learn more and determine whether exemptions were applied. If you have questions about property tax exemptions, please contact the Cook County Assessor's Office at <u>cookcountyassessor.com</u> to learn more.

Though the time for filing 2017 assessment appeals has passed, you can find out information about appealing your property's assessment for 2018 and beyond at the Cook County Assessor's Office and the Cook County Board of Review at <u>cookcountyboardofreview.com</u>.

How much of my Chicago tax increase is due to pension levy increases at the City and CPS?

The City of Chicago increased its pension levy approximately \$53 million over the 2016 levy. This is the third segment of a planned four-year pension levy increase approved by the City Council beginning in tax year 2015. Additionally, the Chicago Board of Education increased their teachers' pension levy by approximately \$154 million in 2017. This increase was approved by Public Act 100-0465, commonly known as the Invest in Kids Act. For a city residential property valued at \$200,000 with a total tax bill of \$3,579, the Board of Education increase accounts for approximately \$99 in taxes while \$54 is attributable to the City increase.

What else is new in 2017?

For the first time, the total of all taxes extended and billed for all taxing districts in Cook County exceeds \$14 billion. Last year the total tax billed in Cook County was \$13.7 billion.

Glossary of Tax Extension Terms

Assessed Value: The fair market value multiplied by the assessment level for a class of property.

Composite Tax Rate: The sum of the tax rates of all the taxing districts (municipality, school district, park district, etc.) which service an individual property.

Equalization Factor: A factor, established by the Illinois Department of Revenue, used to bring the aggregate value of assessments within Cook County to 33 1/3% of the estimated actual fair market value of all real property in Cook County. This factor, also called the "multiplier," is recalculated by the state each year.

Exemptions: For properties and taxpayers who meet certain criteria, all or a portion of qualifying property values may be excluded from taxation under Illinois law. For residential property, a portion of taxable value will be excluded, such as with the homeowner or senior exemptions, if the taxpayer meets statutory requirements.

Home Rule: The County of Cook and qualifying municipalities, including those who have elected to operate in this form, may function as home rule units of government. As home rule units, these entities are not subject to tax rate limitations of the Property Tax Extension Limitation Law (PTELL).

Tax Cap Law: The Property Tax Extension Limitation Law (PTELL) is a law which allows a taxing district to receive a limited inflationary increase in the property tax extension on existing property within that taxing district, plus an additional amount for new construction. It ensures that property tax revenue may only increase by the rate of inflation.

Tax Extension: "Tax Extension" refers to both the amount of property tax to be billed for a taxing district and for the process of calculating the tax rate required to obtain that amount when applied to all taxable value within the district.

Tax Increment Financing (TIF): An economic tool that municipalities may use to generate money for development in a specific geographic area. Properties within a TIF must meet certain criteria, such as blight, or other indicators of economic hardship. Other taxing districts, such as Schools, Parks, and Libraries, only have access to the base taxable value within the TIF for its duration (typically 23 years). Any tax revenue generated from the value growth within the TIF is directed to the TIF itself.

Tax Levy: A taxing district's request for revenue to be obtained from the property tax.

Tax Rate: The tax levy, reduced by statutory limitations, divided by the total equalized assessed valuation of a taxing body. The tax rate is the rate per \$100 of equalized assessed valuation (EAV) that must be paid for the tax year in question.

Taxable Value (EAV): The assessed valuation of each property multiplied by the equalization factor, less applicable exemptions.

Transit TIF: An economic tool that municipalities may use to generate money to fund specific public transportation projects. Differs from traditional TIFs in that there is no hardship requirement and they may last for 35 years. Additionally, part of the tax revenue generated from the value growth within the Transit TIF is distributed to the other taxing districts.

	2017	2016	Difference
Equalization Factor:	2.9627	2.8032	5.69%
Cook County EAV:	\$150,817,077,698	\$143,483,256,019	5.11%

Distribution of Tax Dollars to Taxing Agencies

Typical Taxpayer in City of Chicago

Distribution of Tax Dollars to Taxing Agencies

How Is My Property Tax Bill Calculated?

1. The Tax Rate for each taxing district is calculated:

2. The Composite Tax Rate of all taxing districts in your area is calculated: Taxing District Tax Levy • Taxable Value in Taxing District = District Tax Rate

County Rate

- + Township Rate
- + Municipality Rate
- + Grade School Rate
- + High School Rate
- + Community College Rate
- + Park District Rate
- + Library Rate
- + Other District Rates
- = Composite Tax Rate

3. Your Individual Tax Bill is calculated:

Individual Taxable Value <u>x Composite Tax Rate</u> = Tax Bill Amount

iv.

The property assessment process is the basis for generating property tax revenues that pay for a portion of schools, city and county services, roads, fire protection, public safety, water and sanitation, and other local services.

X	Assessed Value	10% of a \$224,500 Home (average city home value): 22,450		
*	Equalization Factor	Current Equalization Factor: 2.9627		
C	Equalized Assessed Value (EAV) (before exemptions)	Example EAV: 66,513		
\$	Exemptions	Homeowner Exemption:		
X	Equalized Assessed Value (EAV) (after exemptions)	Example EAV: 56,513		
%	Tax Rate	General City Tax Rate: 7.266%		
	Taxes Due	Example Taxes Due: \$4,106		

SAMPLE REAL ESTATE TAX BILL CALCULATION

The typical homeowner exemption for residential property is \$10,000 (other exemptions may apply). This sample calculation is based on the average assessment increase across all residential property in the northern suburbs and average tax increases in the City of Chicago and the southern suburbs. Individual tax bills will vary based on reassessment values and individual tax rates.

CITY OF CHICAGO - \$224,500	2016	2017
